Position Announcement (Full-Time) **PHP Software Developer**

MODUL University Vienna is seeking outstanding candidates for developing Web and back-office applications based on PHP Content Management Systems. Software developers with prior experience in developing Drupal modules are particularly encouraged to apply.

MODUL University Vienna is a recently founded private university with an international orientation. It is located on top of Kahlenberg, a scenic hill overlooking Vienna. The university combines a strong academic foundation with state-of-the-art curricula and a commitment to innovation and sustainability as key drivers of success in a dynamic and knowledge-based society.

Requirements

- Excellent programming skills in PHP; knowledge of other programming languages (Java, Python) is beneficial but no requirement.
- Practical Experience with Content Management Systems (CMS).
- Web technologies including CSS and JavaScript.
- Layout and Usability: Proven record of designing and implementing functional and visually appealing Web sites.
- Candidates with good English writing skills will be preferred.

The position is available immediately; salary and starting date are subject to individual negotiations, depending on availability and qualification (industry experience, degree in computer science or a related area, etc.). Please send your application including cover letter, curriculum vitae and reference projects to the Deputy Managing Director, Ms Wilma Habitzl, Peter-Jordan Straße 78, A-1190 Vienna, Austria. Electronic applications to office@modul.ac.at are preferred. MODUL University Vienna is an equal opportunity employer and strongly encourages qualified women to apply.
